PAUL DOUGHERTY

Paul has been flying airshows since 1998 and as a professional pilot he has logged over 21,000 hours in the sky! He offers unique acts in a 230 horsepower Christen Eagle or a 1930 Great Lakes! Spectators will be tapping their feet to modern day music while enjoying torque rolls, tails slides, and tumbles in the Eagle, or they will experience the thrill of the barnstorming era with his Great Lakes. Paul loves interacting with the crowd and answering questions, and he tries to talk to the audience from the cockpit every show! He and his crew chief, Caroline, make an excellent father daughter team and love performing at airshows.
